DESIGN

- Web design
- Promo design
- Graphic design
- Corporate design
- Typography design

if the user is visually impaired, he will be able to understand where the button is and to find the input form

Letter thickness = Stroke thickness

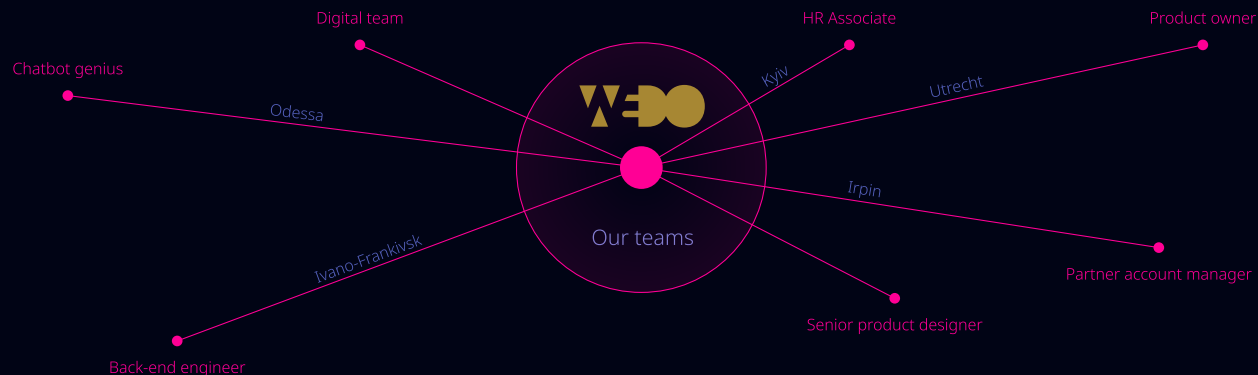

Your success is the reason WeCare

We are a next generation company. Our specialists are all in different corners of Ukraine and Europe. This allows us to be in touch most of the day and respond to your requests at any time.

Our main advantage is individual approach.
We will cover your digital needs A to Z

OUR SERVICES

- Your personal manager
- Project BA and estimation
- Release strategy
- Product delivery

The values WeCherish

Our greatest value is mutual respect and understanding. The relationship between client and contractor directly affects success and quality of the deliverable.

Respect, as we see it, comes in many shapes. It's in the way we treat partners' goals as our own. But it's also in the user experience of the projects we build together. In small things like careful handling of fonts, images and inputs, but also in speed, accessibility, safety, and data protection.

At WeDo, we believe that human happiness is the premise of every successful project. With customer as friend, things become achievable, that cannot be accomplished with effort alone.

Our masterpieces

We work with large companies from countries including Canada, the Netherlands, Jordan, Azerbaijan, Germany, Poland and Ukraine.

Developer company with innovative digital strategy.

CHATBOT

RESULTS

90% of all customer questions were covered by the artificial intelligence we developed together with top real estate experts.

Redirecting users from mobile website to the bot led to a significant increase in conversion. After successful launch of the first bot, two additional bots were implemented.

OUR OFFER

Fructazia is an eastern food and beverages brand of tomorrow. We built the marketing, digital and tech strategies for the company.

FULL IT SUPPORT

SERVICES

- Branding
- Promo design
- Corporate design
- Website
- Landing page
- Tech ecosystem
- Sales automation

RESULTS

Thanks to our developments, the company was able to expand its market presence and enter large supermarket chains, which increased its turnover by tens of thousands of units sold. We continue contributing both to brand growth and tech architecture of the company.
